

Robina and Ruzina: Dedicated Students

Profile	
Name	Robina & Ruzina
Name of School	Simantapara Baripora Shishu Shikka Kendra
District	Bogra
Village	Purabari para
Special Service Provier	GBS

Robina lives on an island *char*. The *chars* are remote and receive very little government support. Most children do not have access to basic education services. Robina is one of eight brothers and sisters and only two have gone to school. Her family has always struggled as they solely rely on her father's income as an agricultural labourer.

"My school was my world."

In 2008, Robina and her sister Ruzina started to attend a CLP learning centre. They were both very attentive and never missed school. Robina's favorite subject is mathematics. She always got the best marks in her class. Robina and Ruzina both passed the end of year examination and both obtained an A+.

Robina and Ruzina have been admitted into a high school six kilometers away from her house. Though it is far, this will not prevent her from attending class every day. Robina and her sister will walk to school together. They cannot wait to start the new school year.

Robina dreams of becoming a doctor. *"I dream of being a doctor so that I can help my community."* She wants to help her community and make her parents proud. Robina's parents are extremely happy that their children have been so successful. They will support their children until the end.
